

# Book Performance Report

## 2017

April 2018

Dear Yasuhiro Iwasawa,

This report provides you with an overview of how your eBook performed on SpringerLink in 2017. We would also like to share some tips and services for you.

You might be familiar with Bookmetrix, a platform that compiles performance metrics for your books/chapters. Last year we **connected Bookmetrix to your MySpringer account**. While this report shows static, calendar-year data, your account shows you *current* SpringerLink usage data as well as the number of citations, social media mentions and book reviews.

Clicking on one of these metrics takes you to the Bookmetrix page for your book where you can find **benchmarks: how your book compares to the average of other titles published in the same year and discipline**.

Just a reminder, you can access MySpringer [here](#).

Best wishes,

Your Springer Marketing team

## Availability of and results for your eBook

Since its online publication on October 20, 2016, there has been a **total of 24,230 chapter downloads** for your eBook on SpringerLink. The table to the right shows the download figures for the last year(s).

This means your book was one of the **top 25% most downloaded eBooks** in the relevant eBook Collection in 2017.

- In addition to the collections, Springer eBooks are available for individual use from our web shop. Your book can be ordered/downloaded directly from its [home page](#).
- To further widen the distribution of your eBook, it has also been made available in the following shop(s):  
Amazon Kindle Shop  
Google play

eBooks reach a broad readership and provide global visibility for your work.

## Spreading the word about your book

To present your book **XAFS Techniques for Catalysts, Nanomaterials, and Surfaces** to its potential readers and make it findable by search engines, it has its own [home page](#), which can be **shared through social media** and where you can download a flyer for your book! **In 2017 this page was visited 829 times.**

- Your book has been announced by the **New Book Alert**, our largest customer emailing.
- Journal editors, journalists or bloggers can request a free **Online Review Copy** of your book from its home page. This online service makes it especially easy for them to write a review. As you know, reviews can be an excellent way to boost a book's visibility in the relevant communities and raise reader interest!

## Tips and services

### Engage on social media – talk about your book

Are you an active social media user? Remember to talk about your book and share the link to your book with your community. What inspired you to write it? How many downloads did it get last year? Posts about your book can reach potential new readers, and help get it cited and get more reviews.

Find a Springer social media account in your discipline and connect with your community: [springer.com/social-media](http://springer.com/social-media)

### Download your author badge

Download it and stick it to your website, post it on social media or place it in your email signature and hyperlink it to your book. Use your author badge to promote your book.

## Open access books and funding options

We publish open access books in science, technology, medicine, the humanities and social sciences. Publishing an open access book with us leads to seven times more downloads, 50% more citations and ten times more online mentions on average than publishing a book through the non-open access route. We offer a variety of book types including monographs, edited volumes, proceedings, SpringerBriefs and chapters. In addition to the electronic version, customers can order a printed edition at a reduced rate. Authors retain copyright. The default Creative Commons Attribution (CC BY) 4.0 International License facilitates free re-use and sharing.
