

Mizuho Yabushita

Assistant professor
Tohoku University

Mizuho Yabushita received his Ph.D. in 2015 from the Graduate School of Chemical Sciences and Engineering, Hokkaido University under the supervision of Prof. A. Fukuoka. From 2015 to 2018, he worked as a postdoctoral fellow at University of California, Berkeley with Prof. A. Katz and at Hokkaido University with Prof. Fukuoka. After his career as an assistant professor in Prof. A. Muramatsu's group in Tohoku University, he joined the research group led by Prof. K. Tomishige as an assistant professor. His current research interests are catalytic conversion of biomass-derived compounds and design of zeolites. He is currently serving as an Early Career Advisory Board of ChemSusChem and member of the Young Scientists Committee of 18th International Congress on Catalysis.
